

The Block 2024

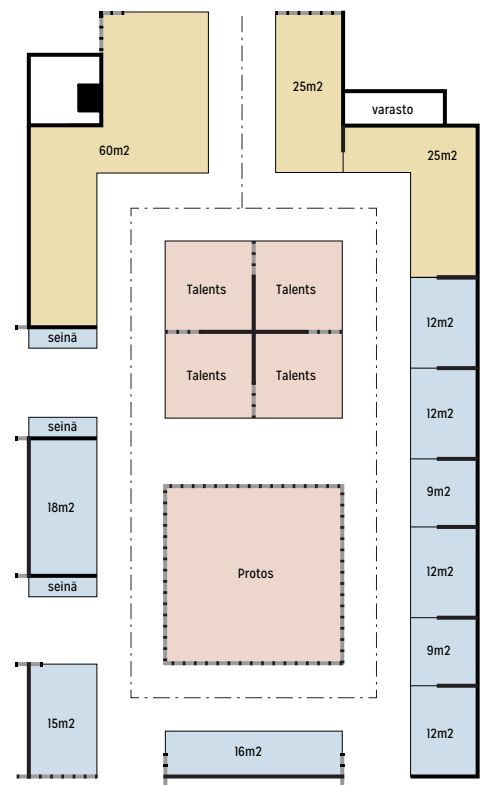

The Block is an area dedicated to new design at the Habitare fair. It features design schools, freelance designers as well as the curated Habitare Talents & Protos exhibitions. The Block is situated in hall 6. The area's uniform architecture clearly defines it from its surroundings and assembles the individual stands into a market square-like entity. The walls are 3000 mm high OSB board which can be painted and exhibited objects can be attached to them. However, the parts with uncovered wall structure should be left unpainted. The floor is concrete, which can be covered if desired, otherwise the stand boundaries are marked with white tape.

The price for schools is 68 eur/m² (-50% off normal price) plus Expostart (incl. socket 16A 230V 3.6 kW and energy consumption, publicity and environmental fee) €650 is charged from all exhibitors. The price includes the walls that come with the uniform architecture. Lighting is arranged for the whole area by truss and charged according to stand size.

Welcome on board!
